## ECONOMIC DAMAGES

***Determine economic damages, primarily compensatory damages based on consequences of breach of contract/fiduciary duties, business interruption, personal injury and wrongful death. Focus on lost profits/earnings using financial analysis to project the “but for world.”***

- Determine economic damages alleged by both supplier and distributor in cross-claims, each alleging the liability of the other for breaching an exclusive distribution agreement with fixed purchase commitments. Submitted affidavits, expert reports and rebuttal reports and testified at arbitration regarding lost profits, fixed and variable costs, effective selling prices and future sales projections.
- Compute economic damages claimed by a printing company due to alleged malfunction of company’s sole printing press. Investigate the impact on profits from economic, industry, customer and other intervening factors other than the alleged malfunction and evaluated economic damages determined by opposing expert.
- Determine lifetime lost earnings of employee based on injuries sustained as a result of a shooting by a police officer. Determine lifetime lost earnings and present and future medical costs of independent owner operator based on injuries sustained while loading equipment. Determine lost earnings of a police officer as a result of being wrongfully denied promotions.
- Investigate property damage and business interruption claims arising from a roof collapse at a nursing home; an electrical fire at a car wash; a burglary at a convenience store; an explosion at an arms manufacturer; storm damage at an automobile vehicle dealership; and defective drums on an assembly line. Assist attorneys and clients with claims resolution involving insurance claims adjusters, umpires and mediators.
- Calculate damages claimed by a “B2C” e-commerce retailer as a result of the alleged wrongful acts of a computer software provider. Integrate into the damages all functional elements to have been included in multiple high-volume websites and determine the “but for” lost profits from lost sales, higher cost of sales and additional fixed costs over several years and products.
- Engaged by Department of Justice to determine lost earnings capacity of individuals as a result of their wrongful death, based on Mandatory Victims Restitution Act and case law. Incorporate minimum or last known wages, taxes, work life expectations, employment cost indices and lost pensions.
- Compute economic damages suffered as a result of actions of a key supplier. Evaluate reasonableness of lost revenue estimates and analyzed incremental “but for” costs incurred with special emphasis on long-run and short-run cost behaviors for fixed and variable costs with multiple cost drivers.
- Calculate property damages in local plant producing raw materials and business interruption losses in a foreign plant producing finished goods as a result of an acid spill. Reconcile property damages and lost profits with financial analysis of insurance company claim report and witness depositions.
- Determine Senior VP’s compensation improved after termination and opposing expert report improperly concluded to the contrary because of unsupported assumptions. Testify that even if wrongfully terminated, the Senior VP suffered no financial damages because of his employer’s conduct. Factor in alternative facts regarding expected work life, compensation, work-related economic benefits, taxes and prejudgment interest.
- Prepare Court ordered accounting of earnings lost from trading activities of a team of brokers before and after leaving a clearing firm. Reconstruct missing transactions and estimate unallocated overhead and other costs before and after effects of team leaving.

## LITIGATION SUPPORT

***Provide trial lawyers and their clients with review, analysis and support in all phases of the commercial and civil litigation process to assist with discovery, analysis and/or preparation for deposition and trial. Focus on assembling deposition and trial binders concerning financial analysis, evaluating material financial transactions and the conduct of directors, offices, employees and professional advisors.***

- Establish a company had excessive levels of debt, insufficient operating cash flows to service debts and negative net worth before the alleged improper termination of a key agreement; that its financial condition was worse than comparable companies and industry benchmarks; that it had a high risk of business failure; and that its eventual self-liquidation was not the result of the agreement termination.
- Engaged by public company's legal counsel to evaluate merits of contemplated litigation against its Big Four CPA firm for alleged audit failures resulting in restatement of financial statements and decline in its share price. Conducted detailed analyses of GAAP and GAAS relating to significant misstatements in the company's financial condition and results of operations and deficiencies in its internal controls.
- Determine that Corporate Defendants existed as separate entities with distinct business purposes, followed proper procedures regarding separate accounting records, properly disclosed distributions and segregated revenues, expenses, assets and liabilities. Establish that funds were not commingled, debts were paid as they fell due until business activities ceased and assets were used to pay liabilities.
- Perform financial analysis regarding the nature, form and substance of a merger and related transactions for a dispute focused on the entity's assets, conditions precedent in the merger agreement and funds no longer available in the entity's treasury after the merger. Render opinions as to the form and substance of the merger and that the transaction resulted in a wrongful dividend.
- Assist counsel for a large diversified public company to evaluate the merits of claims against prior auditors, directors and officers under Private Securities Litigation Reform Act of 1995, Investment Company Act of 1940, PCAOB Standards, GAAP and GAAS. Perform detailed analyses of specific financial transactions and balances and evaluated whether the prior auditors performed their work with the requisite standard of due care.
- Evaluate company documents, SEC reports, accountant's work product and analysts' files in a Section 10(b) 5 securities litigation. Provide counsel with financial analysis and discovery concerning the directors' and officers' knowledge of material misrepresentations to the market during the class period.
- Assist a national accountants' malpractice insurance carrier, and its counsel and claims specialists, to assess the merits of claims brought against accountants. Evaluate and report on work product of over 50 public accounting firms and assisted the insurance carrier to reduce liability risks through educational programming.
- Estimate lost revenues that would be sustained to comply with the Americans with Disabilities Act. Performed financial analysis with market surveys to determine financial impact on the service provider.
- Determine and testify that auditors failed to follow due professional care in the course of its engagement. Review all discovery in the litigation, including auditors' deposition transcripts and working papers to identify specific GAAS failures.
- Determine and testify that auditors exercised the requisite skill and ordinary care and properly complied with GAAS. Investigate, conclude and testify that audited company's financial statements were not misstated and that all disclosures were adequate and proper.

## FORENSIC ACCOUNTING

***Provide trial lawyers and their clients with forensic accounting services and testimony to enable financial analysis and court-ordered accountings in litigation. Focus on complex multiple-entity business disputes, financial reporting and evaluating the effect of financial transactions.***

- Design and conduct forensic accounting procedures, on behalf of counsel for passive minority investors, on the operations and transactions of underperforming privately held businesses with significant cash transactions. Examine the accounting books and records of businesses operated by owner-managers and used financial and benchmark analyses to find questionable transactions and the range of estimated cash shortfalls.
- Engaged by counsel for family-held businesses to perform a financial analysis of related corporate defendants to determine whether financial/business considerations dictated that personal defendants should be liable for the corporations' debts by plaintiffs' attempt to "pierce the corporate veil."
- Determine nature and extent of a manufacturer's post-closing purchase-price adjustments after acquisition by a public company. Recompute the GAAP versus accelerated tax-basis accounting for Plant and Equipment.
- Investigate, on behalf of SEC Division of Enforcement, the propriety of the accounting and financial reporting of related-party transactions between hotel operating subsidiaries and parent. Issues included proper accounting for acquisitions generating significant revenues at year-end date.
- Assist counsel in their representation of investors in failed limited partnerships with significant damage claims, analyzed material financial transactions, developed financial analysis and investigated accounting malpractice.
- Investigate and report to the Receiver significant, unusual changes in the methods and patterns of cash disbursements prior to and following the sudden disappearance of the company's owner-manager/physician.
- Analyze one company's domination and control of another, the disregard of corporate formalities and the financial effects of assets distributions. Issues included cash management systems, intercompany financial reporting, "division stripping" and the impact of the treatment of existential liabilities.
- Perform specific forensic accounting procedures on behalf of industrial property company in support of substantive lease restructuring discussions. The company had built and leased a state-of-the-art corporate headquarters and national distribution warehouse. The tenant entered into a series of ill-fated acquisitions culminating in financial difficulties likely to result in a potential bankruptcy filing. The analyses of the tenant's financial condition were an integral part of the property owner's strategic responses.
- Trace and segregate cash flows, profits and resulting net assets between legal and illegal activities to enable the Court to determine the extent of illegal activities. Engaged on behalf of Defendant seeking to reduce sentence under Federal Sentencing Guidelines.
- Perform accounting procedures to analyze and support an expert opinion in marital dissolution proceedings regarding the marital or non-marital character of assets. Trace currently owned assets back to assets acquired before marriage or acquired during the marriage by gift, inheritance or descent.
- Analyze and determine additional losses suffered as a result of alleged carelessness and negligence in demolishing certain buildings and related facilities located on specific property earmarked for construction of an ethanol plant. Research and evaluate industry conditions, state of capital markets, management assumptions and the discounted cash flow modeling of accounting and industry experts.

## BANKRUPTCY/DISTRESSED BUSINESSES

***Provide trustees and trial lawyers and the debtors or creditors they represent with bankruptcy and reorganization services, primarily in core proceedings. Focus on performing financial analysis of material transactions, fraudulent conveyances, solvency and preference analyses, the forensic reconstruction of accounting books and records and plan feasibility.***

- Demonstrate that the Debtor's Cash Flow Projections were a well-prepared forecast of future operations, based on reasonable assumptions that took into consideration the changes expected as a result of the Plan Confirmation that would enable the Debtor to fund the Plan's cash flow requirements.
- Complete solvency, preference and liquidation analyses to support counsel's actions against lenders, management and professional advisors resulting from diversified corporation's default on its bank loans. Develop support for the Debtor's request for the Court's denial of post-petition financing.
- Investigate and analyze a Debtor's pending claims and adversary proceedings against shareholders, lenders and professional advisors concerning a LBO transaction involving fraudulent conveyances. Analyze the impact of various business combinations on the Debtor's financial condition after restructuring, performed a solvency analysis and reviewed material transactions contributing to the Debtor's deepening insolvency.
- Demonstrate a company's business started to decline before a specific transaction and its business continued to decline while related companies prospered. Issues included a pattern of transactions transferring assets and revenues to related companies, the liquidity of assets and the value of the use of related company assets.
- Provide litigation services in an action filed on behalf of unsecured creditors seeking recovery of pre-petition fraudulent conveyances. Perform a financial analysis of significant pre-petition transactions.
- Analyze and testify as to the Debtors' financial condition after assuming certain liabilities and as to the value of the Debtor's net assets. Prove that Debtors did not receive quantifiable benefits from assuming liabilities and issued checks to each other that did not result in checks to third parties.
- Review Debtor's Amended Disclosure Statement and Plan of Recognition; compare projections to pre- and post-petition actual results; evaluate key assumptions included in the Debtor's projections of sales revenues and royalty income; and reconstruct previously incomplete financial records.
- Perform a preference analysis relating to vendors and insiders of a privately held business. Prove the foundation for preference actions and secured original checks, invoices and wire transfers as evidence. Complete debtors' amended income tax returns for the Plan Trustee.
- Assist manufacturing company with post-bankruptcy reorganization and restoration of operations. Issues included transfer and resumption of business, preserving contracts, ensuring ongoing economic viability, restructuring real estate entities and administrative aspects of accounting records and income tax compliance.
- Employed by a Chapter 7 Trustee to investigate allegedly unsubstantiated and/or fraudulent financial reporting by a consolidated health care provider. Provide the Trustee and legal counsel with forensic accounting and litigation accounting support, including reconstruction of incomplete and/or falsified financial records.
- Perform financial analysis and specific agreed upon procedures for a large, privately held holding-entity that operated a manufacturing division and managed a corporate office. Determine and attest to the sufficiency of assets to meet liabilities, including additional worker's compensation judgment liability and issue an independent report detailing work performed and findings reached.

## INVESTIGATIONS

***Conduct internal investigations on employee/officer misconduct, financial reporting irregularities and fraudulent financial transactions. Focus on financial analysis, examining documents, interviewing personnel, gathering evidence and performing whistleblower-directed or risk-based procedures to determine findings as to the nature, timing and extent of fraud perpetrated.***

- Investigate of the accounting for receivables, loans, advances, suspense accounts and related transactions. Interview directors, officers and senior personnel, including a whistle-blower, and examine over 1,000 accounting entries in the general ledgers, account analyses and handwritten “second set of books.” Perform financial analyses, forensic accounting and investigative analyses and gather, review and control more than 3,000 documents for trial. Conclude the former CFO created, directed and controlled a financial reporting system to systematically and fraudulently manipulate and conceal true financial condition from the directors, officers, shareholders, auditors, lenders and revenue authorities for more than ten years.
- Conduct an internal corporate investigation for new management to determine the nature, timing and extent of fraud perpetrated by the former general manager and controller. Conduct forensic procedures to detect fraud and quantify the extent of fraudulent financial reporting and misconduct.
- Engaged by the Office of the United States Attorney to assist in qui tam originated investigation of approximately \$10 million charged to NIH and VA Federal Grants. Apply risk assessment, forensic accounting and investigative techniques to electronic data provided by grantee organization’s legal counsel to complete financial analysis leading to preliminary findings of which amounts charged under the grants were allowable, allocable, reasonable, consistent and conforming.
- Report to a public company’s Audit Committee on the sufficiency of the nature, timing and extent of the investigative and/or internal audit procedures performed on improper transactions authorized by the Senior Vice President for Marketing. Assist management to reestablish internal controls over the safeguarding of corporate assets against unauthorized use and achieve proper financial reporting.
- Investigate of the falsified expense reports of a foreign national senior director of a large steel company. Prove the director submitted expenses for reimbursement for travel to cities that he had not been in on dates presented. Discover the pattern of alleged fraud and the officer’s motives through an analysis of telephone bills submitted for reimbursement.
- Determine that a leading U.S. and international news and information company failed to design, operate and/or implement adequate internal controls to prevent theft of its assets by a controller. Demonstrate how the controller defrauded the public company because of significant deficiencies and/or material weaknesses in the design, operation and/or implementation of its internal controls and how it missed several opportunities at specific dates to reduce the amount stolen.
- Support SEC Division of Enforcement in administrative proceedings under SEC Rules of Practice to determine violations of Federal securities laws. Investigate and analyze conduct of directors, officers and auditors regarding improper revenue recognition of material “bill and hold” transactions.
- Investigate the propriety of the design and structure of financial transactions related to specific life insurance policies issued by an insurance carrier that were originated by a specific independent insurance producer. Review and analyze the use of irrevocable life insurance trusts, premium finance agreements and sale of beneficial interests to reveal the true nature and use of the financial transactions.

## VALUATION ANALYSIS

***Provide trial lawyers and their clients with financial analysis regarding valuations, especially related to applying formulae in contracts, distressed businesses and/or turnaround and bankruptcy proceedings. Focus on definitions of value in contracts, fair values of assets and liabilities, reasonably equivalent value, future economic benefit streams, financial condition and contingent assets and liabilities.***

- Reconstruct and analyze a Debtor's restructurings, determine that its successor assumed more of its liabilities, at fair value, than the assets it acquired, to demonstrate the Debtor received more than reasonably equivalent value in exchange for assets transferred and liabilities assumed. Reconstruct the financial condition and results of operations of companies managed by the Debtor, benchmarking their performance to industry standards and comparable companies, to determine the fair values of accounts receivable, trademarks and other assets transferred by the Debtor to its successor.
- Determine, using a discounted cash flow analysis, the total present value of the net assets of a joint venture LLC established to raise, invest and manage funds on behalf of foreign investors in real estate projects. Reconcile my calculation to the business valuation performed on behalf of other joint venture partners and rebut the methodology, assumptions and information relied upon by the business appraiser.
- Determine and testify as to the fair value of a minority shareholder's ownership interest in a distressed corporation as of a date ordered by the Arbitral Panel. Determine and compare book value, going concern value, liquidation value, replacement value and fair market value of corporation.
- Determine the value of a public company's investment in a foreign enterprise using international accounting principles, financial data, financial condition, management interviews and supporting documentation. Compare value of investment in the foreign enterprise using "net investment value," "book value" and other valuation bases under the insurers' Expropriation and Forced Abandonment Insurance Coverage of Foreign Projects.
- Determine fair (market) value of a distributor before and after termination of a distributor agreement, prove other expert wrongly concluded as to value because of failure to obtain sufficient relevant data to afford a reasonable basis for opinions, use of improper valuation methods, applying valuation methods improperly, failing to consider all methods and improperly reconciling disparate conclusions.
- Determine and testify as to the Fair Market Value of Equipment based on definitions and formulae in the Landlord's Purchase Option Agreement, the Master Lease Agreement and other agreements. Perform valuation analyses and incorporate the opinions and assumptions of other experts.
- Calculate, for the board of directors' decision-making and performance evaluation processes, the internal rates of return and payback periods for investments in acquired companies, based on their expected, actual and "normalized" future benefit streams as compared to initial costs of acquisition.
- Investigate, on behalf of U.S. governmental insurer, claims filed by an energy company for losses incurred by foreign gas pipeline operators. Verify valuation of investor's interests, unravel complex corporate structures and analyze extent to which investment was impaired by foreign government's currency devaluation and expropriation.
- Determine, on behalf of the Liquidating Trustee, the fair market value of the invested capital of a company marketing a unique line of nutrition related products and energy drinks before and after the date of certain transactions. Analyze and compare the discounted cash flows based on projections prepared before and after the date of those transactions.

## ACCOUNTING ANALYSIS

***Provide owners and managers of businesses, their legal counsel and insurers, with financial and accounting analysis to address specific business needs. Focus on analyses of contractual terms, establishing benchmarks, examining divisional revenues and expenses and measuring cash flows and business performance.***

- Evaluate the reasonableness of management's assumptions included in an architect's forecasted and projected financial statements. Issues included analysis of direct and indirect costs, operating expenses and profits in contemplation of significant increases in interest rates.
- Investigate and trace, on behalf of attorney general and bankruptcy trustee, the nature, timing and extent of participants' contributions and distributions in a "Ponzi" scheme and assist with "claw back" proceedings. Evaluate potential recoveries under "Rising Tide" and "Net Investment" approaches.
- Analyze multi-year, multi-million-dollar construction program to modernize a city's physical school facilities. Investigate and perform financial analysis of capital improvement program on behalf of inspector general. Develop benchmarks for fixed cost bids and change orders by school, contractor and project type and selected contracts with significant variances for additional review and checking.
- Develop a comparative financial analysis of a privately held company's current and prior five years' financial performance, including trends in key financial ratios, comparisons to peer company benchmarks and "normalizing" adjustments.
- Develop and implement, in close cooperation with owners and senior management, monthly executive committee meetings to address the primary business needs of a specialty distributor. Develop action plans and implement corrective action and business solutions, including provide advice on corporate restructuring and restoring several divisions to profitability.
- Investigate thefts of unclaimed cash wages and other elements of payroll fraud. Design and implement internal accounting controls to prevent the reoccurrence of such fraud. Present findings during an investigation by a governmental accounting oversight review board.
- Perform financial analysis of all program revenues and expenditures for a large city services department. Establish internal control systems and financial reporting systems to provide program managers with early warning of significant over/under utilization of program revenues. Attest to examinations of program revenues and costs, including financial compliance with federal programs.
- Review functions, duties and responsibilities of president and senior management of a multi-division food processing company. Analyze nature of acquisitions and divestitures. Identify and implement organizational changes, establish working committees of middle management and implement recommendations of organizational psychologists.
- Prepare an internal control study to document current procedures and internal controls relating to specific activities and locations to determine if any control objectives were not being adequately met to reduce internal control risk to acceptable levels.
- Review calculations of expected present values of actual and/or contingent asbestos and other contingent liabilities, with comparisons to anticipated insurance recoveries under various probability assumptions.

## INTELLECTUAL PROPERTY/FRANCHISE

***Provide trial lawyers, their clients and franchisees and franchisors with consulting and expert services related to intellectual property issues and franchise related disputes. Focus on startup businesses, economic damages related to copyright infringement and franchise cash flow modeling.***

- Determine economic damages suffered by designer, manufacturer and seller of original fine furniture as a result of copyright, trademark and trade dress infringements by multiple unlawful manufacturers and sellers. Determine the unjust enrichment of the infringing companies and lost profits on infringed and companion sales.
- Engaged by legal counsel to investigate and report on the nature, timing and extent of multiple fraud schemes involving counterfeit and “buy-down” products. Describe how, in order to increase customer and revenue base, Defendants created, directed and engaged in multiple schemes that caused the Plaintiff to pay rebates that it otherwise would not, and should not, have paid.
- Review, analyze and render opinions relating to direct and indirect economic damages from alleged infringement of a copyrighted song whose lyrics were included as an element of a radio imaging piece with the creativity and production of others and aired on commercial radio station. Focus on an analysis in the event the trier of fact finds infringement of copyright claims of statutory damages and actual damages considering Plaintiff’s and Defendant’s Profits.
- Calculate damages suffered by franchisees as a result of franchisors’ breach of franchise agreement. Analyze lost profits during the “but for” period and support for assumptions in the damages model.
- Evaluate economic damages suffered by manufacturer as a result of a distributor’s breach of an exclusive private-label food production contract. Identify flaws in opposing expert’s methodology and calculations creating specific significant and quantifiable overstatements of damages.
- Review transactions acquiring and managing skilled nursing facilities and related franchised businesses and calculate management fees, “earn out” calculations and profits earned on charges exceeding the fair market value of goods and services.
- Reconstruct and determine the actual losses sustained by several car wash purchasers/licenses due to the alleged fraudulent misrepresentations made by the seller/licensor regarding the financial performance, licensee involvement and maintenance required to own and operate the car washes.
- Rebut expert report on present value of lost profits associated with alleged failure to renew franchise agreements, proving the damages claim was unsubstantiated and unsupported, the claim was speculative and that there were no damages.
- Determine that the franchisee’s payments of rents and royalties under a Master Franchise Agreement were proper, accurate and complete. Investigate whether the franchisee had correctly accounted for all adjustments necessary after acquiring certain regional franchise and non-franchise businesses.
- Determine the completeness of revenues due by a manufacturer and distributor of electronic equipment under a royalty and licensing agreement. Investigate and reconstruct the manner in which the royalty revenues were calculated and perform a royalty audit.
- Analyze the completeness and/or proper reporting of royalty payments due an individual for use of their likeness by a distributor of specialized products through multiple distribution channels. Investigate and recreate the quantities and pricing of reportable products sold over a ten-year period.

## REAL ESTATE/CONSTRUCTION

***Provide developers, owners and tenants of property/equipment with financial analysis and services to resolve disputes. Focus on real estate development, landlord/tenant issues, environmental remediation and working with architects, engineers and counsel to analyze and determine costs and economic damages.***

- Perform a financial analysis of a lump sum engineering, procurement and construction contract for a high-tech steel production plant to determine amounts owed to vendors. Categorize, trace and verify internal and third-party charges, pass-through costs and change orders to support drawdowns on letters of credit.
- Perform court-ordered accounting of six years of profits and losses of ten real estate developments in different stages of construction with varying partnership interests. Report to the Court the extent of partners' compliance with partnership agreements and prepared amended financial statements and tax returns.
- Investigate complex international real estate transactions in a matrimonial dispute and integrate the work of U.S. and international experts. Prepare pre-trial summary and analysis of marital assets and assisted counsel to gain an understanding of complex transactions by demonstrating the true substance of the transactions.
- Review documentation and interview contractors regarding rehabilitation of homeless shelters to develop strategic responses to unresolved issues. Perform analysis of contractor and subcontractor invoices, working with architects and engineers to establish scope of work for binding arbitration.
- Analyze Landlord's calculation of Additional Rent defined in the Building Lease and rendered expert opinion that Landlord failed to provide Tenant with sufficiently complete and supportable information and documentation to verify expenses included in the calculation. Compute, to the extent Landlord's limited information and documentation was reliable, the annual aggregate overcharges of Additional Rent.
- Determine lost profits, sunk costs and other damages in a dispute between a real estate developer and its client over air rights. Economic damages included analyses of real estate development costs incurred, direct and indirect overhead of land parcels and replacement value.
- Prepare financial analysis of asbestos abatement expenditures in accordance with regulatory requirements, verified expenditures and reimbursement requests, reconciled costs to contracts and change orders, responded to adverse EPA findings and segregated costs between original scope of work and unforeseen site conditions.
- Assist CEO of a major law firm in recovering significant revenue in a case involving operating expenses on a lease. Discover and develop a proof of the lessor's pattern of overcharging on common area expenses.
- Analyze key processes in a city's ongoing capital improvement program, especially construction management policies and procedures. Conduct construction document reviews of a sample of new construction and major renovation projects with emphasis on the nature, extent and pattern of change orders.
- Reconstruct all annual financial statements and financial accounting books and records of rental property, including all cash received from and/or disbursed to partners, and prepare report as to the net amount due from one partner in the real estate venture to the other.
- Investigate a landlord/tenant dispute as to the amount of rent and common area maintenance costs charged to the tenant and other issues alleged in the Complaint. Trace all available invoices, summaries of costs, general ledgers, trial balances and check registers. Compute the annual allocations of common area maintenance costs by reference to the original lease, subsequent lease amendments, a reclamation agreement and correspondence between the parties.

## WHOLESALE/RETAIL

***Provide wholesalers and retailers and their legal counsel with financial analysis regarding expected revenues and costs of revenues. Focus on economic damages, “earn outs” and evaluating the reasonableness of management’s forecasts, projections and assumptions.***

- Determine accuracy and validity of “earn out” calculations of multiple wholesale business units pursuant to a Sale and Purchase Agreement, taking into account inconsistencies between GAAP and the Sellers’ prior practices. Investigate allegations that after-acquired businesses were comingled, revenues were diverted, expenses were shifted and underlying supporting documentation was destroyed.
- Determine an authorized dealer for a large retailer of tools, garden products, home electronics and appliances suffered no lost profits and had no damages as a result of the retailer’s actions. Find that its damages analysis was speculative, unsubstantiated and/or unsupported, that the authorized retailers financial performance and profitability began to decline before the retailer opened a competing store.
- Identify, on behalf of counsel for minority shareholders, selected classes of transactions for in-depth investigation to ensure properly accounted for in a manufacturing and distribution company’s financial books and records to establish the business’ true financial condition for settlement negotiations and business valuation purposes.
- Compare valuation of year-end retail inventory performed by public company’s officers and auditors. Issues included concealment of internal control deficiencies, inappropriate “roll-forward” procedures, accounting for rebates, cost accounting and sampling errors and fraudulent physical counting problems.
- Develop corporate performance measurement systems, internal controls, financial reporting, accounting policies, procedures and processes for a large structural steel wholesaler and retailer. Analyze profitability, liquidity and return on investment by customer, by warehouse and by product segment.
- Assist counsel with discovery, financial analysis and document requests relating to termination of a merger agreement in reliance on a material adverse change clause. Analyze acquired company’s GAAP earnings, revenue recognition, “earn out” calculations and causes of business failure.
- Perform a Court-ordered accounting of the amount that may be owed by a large, diversified retailer to its overseas supplier in the event monies were still owed at all. Verify, including by non-statistical sampling, the accounting of all invoices, payments and other debits and credits for a three-year period.
- Evaluate contracts to outsource operations to outside vendors, review bid results and assess the performance of vendors under contracts, including inspections to determine vendors’ compliance with contract elements. Determine damages and identify operational efficiencies.
- Investigate and identify suspicious cash and credit card disbursements of a senior executive director using specific investigative criteria and integrate findings into spreadsheets, calendars and other demonstrative presentations. Support special counsel’s investigation into executive director’s activities and its interviews of senior management and others and implement additional internal control procedures.
- Enable large coffee wholesaler to reduce several of its costs of doing business using an expense reduction approach that integrated non-payroll overhead audits, payroll reviews, information technology teams, reengineering of operational procedures and establishing and monitoring budgets.

## MANUFACTURING/DISTRIBUTION/TRANSPORTATION

***Provide manufacturing and distribution companies with financial analysis regarding costs of manufacturing, distribution and transportation. Focus on issues related to financial reporting and other disclosures, adequacy of documentation, cost charge-backs, costing systems, economic damages, special purpose examinations and purpose of business expenditures.***

- Assist counsel for truck drivers' association to determine excessive charge-backs and other damages, suffered by a class of independent owner-operators as a result of actions by a regulated motor carrier. Damage analysis necessitated reconstructing an accounting of all fuel purchases and sales and other charge-backs during the class period.
- Investigate and reconstruct the job-cost accounting system and internal control structure of a manufacturer of tooling molds to the automotive industry. Apply cost accounting principles to recompute manufacturing labor and overhead rates, verify in-house and outsourced material component costs and reallocate job-costs of a capital nature, in conformity with customer's manufacturing guidelines
- Perform, on behalf of Inspector General, an in-depth investigation, evaluation and management study of a school transportation program. Evaluate program manager's performance and vendors' contract compliance. Perform unannounced inspections of school buses for driver and bus safety compliance. Provide numerous efficiency initiatives and management recommendations.
- Determine damages sustained by an Illinois distributor as a result of the alleged breach of contract and violation of the Illinois Consumer Fraud and Deceptive Business Practices Act by national developer and marketer of educational materials.
- Investigate of the activities of the chief financial officer of a distribution company through interviews of the target, senior management and employees. Supervise forensic examinations of computers using predetermined search criteria. Integrate reviews of company documentation with online public records database searches. Determine the entity's losses by type of fraud scheme and present the fraudulent activities to senior management and legal counsel.
- Engaged by insurance company to investigate contractor's claim for increased transportation and material handling costs of performance of environmental remediation during conversion of a military base to residential redevelopment. Prepare analysis of construction claims and liens.
- Investigate diversion of assets by principal stockholders and senior management from a transportation carrier using related party leases and other financial schemes. Evaluate the audits performed by a national CPA firm prior to discovery of the wrongdoing and the investigative work performed after the fraud was uncovered.
- Engaged by legal counsel to investigate and evaluate vendors' claims for amounts owed in construction of a rail transit project. Review architects' and engineers' reports, contracts, change orders, financial/accounting records and deposition transcripts to determine vendors' increased costs of performance.
- Enable large coffee wholesaler to reduce several of its costs of doing business using an expense reduction approach that integrated non-payroll overhead audits, payroll reviews, information technology teams, reengineering of operational procedures and establishing and monitoring budgets.
- Reconstruct the accounting books and records of a joint venture formed by distributors of printing presses from date new entity formed through date of dissolution. Account for the parties' contributions, distributions, profits and losses as provided for by the terms of the joint venture's operating agreement.

FEDERAL/STATE/LOCAL GOVERNMENT

***Provide managers of state and local governmental units with financial analysis and consulting to create efficient and effective operations and accountability. Focus on program revenues and costs, false claims and investigating and analyzing billings by and payments to government contractors to establish allowability, allocability and reasonableness.***

- Determine the nature, timing and extent of the involvement of two separate public accounting firms that allegedly failed to discover a more than \$50 million embezzlement from 1983 to 2012 by the appointed controller and treasurer of an Illinois city, believed to be the largest municipal fraud in U.S. history.
- Trace the historic use of the City of Harvey, Illinois' Water Funds to determine whether funds were used for non-water purposes or non-City purposes and assess the City's overall financial condition. Investigate the City's financial practices, procedures and internal controls and report findings and recommendations to the Court.
- Perform utility rate structure audits on behalf of a city's energy department to analyze and review propriety of charges levied by utility vendors. Verify the use of the contractual tariff structure, examine billing for cost savings and inaccuracies, quantify billings under alternative tariff rates and negotiate credits with vendors.
- Assist a United States Attorney for Northern District of Illinois to review financial records of defendants violating Clean Water Act to determine ability to pay damages under Consent Decree. Identify material inconsistencies in defendants' financial documents and representations to U.S. Department of Justice.
- Conduct fraud investigation on behalf of chief operating officer of city government into financial activities of delegate agency. Find delegate agency filed false and misleading financial reports, breached federal, state and city mandates and was insolvent. Provide inspector general with support for termination of agency.
- Examine a city hall's renovation programs to determine construction and other costs incurred by the city since inception. Evaluate allocations of project costs for reasonableness in accordance with accounting, allocation and cost principles/criteria.
- Analyze a real estate developer's financing and other carrying costs associated with acquiring, holding and developing property awaiting annexation by a village. Determine costs arose primarily due to the way in which the property was acquired and transactions were originally structured, not primarily related to alleged delays in the village's processes and that claims for damages were speculative, insufficiently detailed and overreaching.
- Analyze and evaluate the contractors' labor, overhead and capital expenditures for allowability, allocability and reasonableness in accordance with a city's multi-million contract to upgrade its emergency communications system and assemble evidential matter supporting the city's legal counsel claims for recovery of overcharges.
- Investigate if a board of commissioners properly expended funds in the best interests of taxpayers in accordance with prescribed requirements. Evaluate internal controls to ensure adequate safeguarding of funds and perform additional specific procedures to report findings covering a four-year period.
- Perform agreed upon procedures, on behalf of Special Counsel to the Board of Commissioners of a large, developing Illinois county, to analyze the financial condition of the provider of a Guaranty relative to financial performance obligations of the developer and operator of a waste disposal facility located in the county.
- Perform special-purpose vendor compliance examinations on behalf of city government and audit vendor charges to ensure billings in accordance with contract and prevailing tariffs. Determine vendor overcharges and contractual violations and assist in recovering significant refunds due to the city.
