 under contracts, including inspections to determine vendors' compliance with contract elements. Determine damages and
 identify operational efficiencies.
- Investigate and identify suspicious cash and credit card disbursements of a senior executive director using specific
 investigative criteria and integrate findings into spreadsheets, calendars and other demonstrative presentations. Support
 special counsel's investigation into executive director's activities and its interviews of senior management and others and
 implement additional internal control procedures.
- Enable large coffee wholesaler to reduce several of its costs of doing business using an expense reduction approach that
 integrated non-payroll overhead audits, payroll reviews, information technology teams, reengineering of operational
 procedures and establishing and monitoring budgets.

MANUFACTURING/DISTRIBUTION/TRANSPORTATION

Provide manufacturing and distribution companies with financial analysis regarding costs of manufacturing, distribution and transportation. Focus on issues related to financial reporting and other disclosures, adequacy of documentation, cost chargebacks, costing systems, economic damages, special purpose examinations and purpose of business expenditures.

- Assist counsel for truck drivers' association to determine excessive charge-backs and other damages, suffered by a class of
 independent owner-operators as a result of actions by a regulated motor carrier. Damage analysis necessitated
 reconstructing an accounting of all fuel purchases and sales and other charge-backs during the class period.
- Investigate and reconstruct the job-cost accounting system and internal control structure of a manufacturer of tooling
 molds to the automotive industry. Apply cost accounting principles to recompute manufacturing labor and overhead rates,
 verify in-house and outsourced material component costs and reallocate job-costs of a capital nature, in conformity with
 customer's manufacturing guidelines
- Perform, on behalf of Inspector General, an in-depth investigation, evaluation and management study of a school transportation program. Evaluate program manager's performance and vendors' contract compliance. Perform unannounced inspections of school buses for driver and bus safety compliance. Provide numerous efficiency initiatives and management recommendations.
- Determine damages sustained by an Illinois distributor as a result of the alleged breach of contract and violation of the Illinois Consumer Fraud and Deceptive Business Practices Act by national developer and marketer of educational materials.
- Investigate of the activities of the chief financial officer of a distribution company through interviews of the target, senior
 management and employees. Supervise forensic examinations of computers using predetermined search criteria. Integrate
 reviews of company documentation with online public records database searches. Determine the entity's losses by type of
 fraud scheme and present the fraudulent activities to senior management and legal counsel.
- Engaged by insurance company to investigate contractor's claim for increased transportation and material handling costs
 of performance of environmental remediation during conversion of a military base to residential redevelopment. Prepare
 analysis of construction claims and liens.
- Investigate diversion of assets by principal stockholders and senior management from a transportation carrier using
 related party leases and other financial schemes. Evaluate the audits performed by a national CPA firm prior to discovery
 of the wrongdoing and the investigative work performed after the fraud was uncovered.
- Engaged by legal counsel to investigate and evaluate vendors' claims for amounts owed in construction of a rail transit project. Review architects' and engineers' reports, contracts, change orders, financial/accounting records and deposition transcripts to determine vendors' increased costs of performance.
- Enable large coffee wholesaler to reduce several of its costs of doing business using an expense reduction approach that
 integrated non-payroll overhead audits, payroll reviews, information technology teams, reengineering of operational
 procedures and establishing and monitoring budgets.
- Reconstruct the accounting books and records of a joint venture formed by distributors of printing presses from date new entity formed through date of dissolution. Account for the parties' contributions, distributions, profits and losses as provided for by the terms of the joint venture's operating agreement.

FEDERAL/STATE/LOCAL GOVERNMENT

Provide managers of state and local governmental units with financial analysis and consulting to create efficient and effective operations and accountability. Focus on program revenues and costs, false claims and investigating and analyzing billings by and payments to government contractors to establish allowability, allocability and reasonableness.

- Determine the nature, timing and extent of the involvement of two separate public accounting firms that allegedly failed
 to discover a more than \$50 million embezzlement from 1983 to 2012 by the appointed controller and treasurer of an
 Illinois city, believed to be the largest municipal fraud in U.S. history.
- Trace the historic use of the City of Harvey, Illinois' Water Funds to determine whether funds were used for non-water
 purposes or non-City purposes and assess the City's overall financial condition. Investigate the City's financial practices,
 procedures and internal controls and report findings and recommendations to the Court.
- Perform utility rate structure audits on behalf of a city's energy department to analyze and review propriety of charges
 levied by utility vendors. Verify the use of the contractual tariff structure, examine billing for cost savings and inaccuracies,
 quantify billings under alternative tariff rates and negotiate credits with vendors.
- Assist a United States Attorney for Northern District of Illinois to review financial records of defendants violating Clean
 Water Act to determine ability to pay damages under Consent Decree. Identify material inconsistencies in defendants'
 financial documents and representations to U.S. Department of Justice.
- Conduct fraud investigation on behalf of chief operating officer of city government into financial activities of delegate agency. Find delegate agency filed false and misleading financial reports, breached federal, state and city mandates and was insolvent. Provide inspector general with support for termination of agency.
- Examine a city hall's renovation programs to determine construction and other costs incurred by the city since inception. Evaluate allocations of project costs for reasonableness in accordance with accounting, allocation and cost principles/criteria.
- Analyze a real estate developer's financing and other carrying costs associated with acquiring, holding and developing
 property awaiting annexation by a village. Determine costs arose primarily due to the way in which the property was
 acquired and transactions were originally structured, not primarily related to alleged delays in the village's processes and
 that claims for damages were speculative, insufficiently detailed and overreaching.
- Analyze and evaluate the contractors' labor, overhead and capital expenditures for allowability, allocability and
 reasonableness in accordance with a city's multi-million contract to upgrade its emergency communications system and
 assemble evidential matter supporting the city's legal counsel claims for recovery of overcharges.
- Investigate if a board of commissioners properly expended funds in the best interests of taxpayers in accordance with
 prescribed requirements. Evaluate internal controls to ensure adequate safeguarding of funds and perform additional
 specific procedures to report findings covering a four-year period.
- Perform agreed upon procedures, on behalf of Special Counsel to the Board of Commissioners of a large, developing
 Illinois county, to analyze the financial condition of the provider of a Guaranty relative to financial performance obligations
 of the developer and operator of a waste disposal facility located in the county.
- Perform special-purpose vendor compliance examinations on behalf of city government and audit vendor charges to
 ensure billings in accordance with contract and prevailing tariffs. Determine vendor overcharges and contractual violations
 and assist in recovering significant refunds due to the city.
